Education

Appalachian State — 2009 to 2013
B.S. Information Systems 2013
Relevant Courses : Networking and IT Infrastructures · Programming Software Solutions · Database Management · Systems Analysis and Design

Springboard — 2020 to Current
9-month intensive course in Software Engineering methodologies and technologies

Projects

News Fight — Fall 2020 to Winter 2020
A web app utilizing python sentiment analysis which quantifies attitudinal leanings of current news headlines for desired topic. Github
Flask · Python · JavaScript · Postgres · sqlAlchemy · jQuery · CSS3 · Bootstrap · HTML5 · Heroku · AJAX

Personal Portfolio — 2020 to Current
My personal site. Backend built from scratch powered by Python, Postgres and served with Flask. The Front-End is made with custom bootstrap and a smattering of vanilla JavaScript. It includes a small custom CMS to more easily manage my blog posts and new project additions. Github
Flask · Python · JavaScript · Postgres · sqlAlchemy · CSS3 · Bootstrap · HTML5 · Heroku

Employment

Sentinel Technologies — Downers Grove, IL
Advanced Network Operations Analyst — Aug. 2017 to Jan. 2020

- Managed real-time monitoring and triage of customer incident reports and incoming alarms for all monitored network devices
- Utilized telnet, SSH, RDP, and CLI interfaces to investigate and troubleshoot incident alarms
- Provided critical incident response/management focused on customer communications
- Prioritized, managed, and owned issues impacting customers from detection to resolution
- Mentored and trained junior NOC members

Bon Secours Health System — Richmond VA
IT Support Analyst — Mar. 2016 to June 2017

- Interpreted and executed Bon Secours Health System policies and procedures for personal computers and Operating System network software per HIPA guidelines
- Consistentently ranked among the top performers in a department fielding hundreds of IT issues a day for a user base of over 20,000

Estes Express Lines — Richmond VA
Support Analyst — 2015 to 2016

- Provided first-level contact and problem resolution to all users remotely
- Fielded initial network outage reports and coordinated with service providers
