		Detail driven

PROJECTS

News Fight :: https://newsfight.herokuapp.com/ — Dec. 2020 to Jan. 2021
- A Fullstack web application utilizing python sentiment analysis to quantify attitudinal leanings of current news headlines
- Integrated and combined News API data and Vader sentiment into Flask backend routes
- Reduced API calls by 20% by implementing Postgres database to store news source information
- Employed client side javascript AJAX calls to display news stories and data asynchronously

Personal Portfolio :: https://www.huntervl.com — 2020 to Current
- My Fullstack personal site developed from scratch served by Flask via 20+ unique routes
- Utilizes a PostgreSQL database to store all user, blog, and project data.
- Implemented a custom content management system to provide CRUD functionality for posts, projects, and tags in the browser
- Designed all front-end components including SVG and CSS animations, typography selection and color pallet

EMPLOYMENT

SENTINEL TECHNOLOGIES — Downers Grove, IL
Senior Network Operations Analyst — Aug. 2017 to Jan. 2020
- Managed real-time monitoring and triage of customer incident reports, incoming alarms for over 1500 monitored routers/switches
- Took ownership of numerous simultaneous issues impacting customers from detection to resolution, on a daily basis
- Interacted and Coordinated with over a dozen regional and national ISP's in addition to other technology service vendors
- Collaborated with various internal technical teams on high impact alarms for timely and transparent resolutions
- Mentored and trained over 6 junior NOC team members during tenure
- Authored technical documentation and procedures for departmental use
- Utilized telnet, SSH, RDP, and CLI interfaces to investigate and troubleshoot incidents spanning numerous levels of the Stack

BON SECOURS HEALTH SYSTEM — Richmond VA
IT Analyst — Mar. 2015 to June 2017
- Executed Bon Secours Health System IT support procedures for a network of over 43 hospitals
- Assisted in the planning and rollout of a Citrix based 2 factor authorization system to a base of over 20,000 users and devices
- Wrote numerous technical documents utilized in departmental training
- Provided training on hospital system usage and administration to junior team members

ESTES EXPRESS LINES — Richmond VA
Support Analyst — 2014 to 2015
- Provided initial contact IT support to all after hour employees for internal systems and hardware
- Fielded network outage reports and coordinated with service providers and affected users towards resolution
